

## Lynne Shaw

Since first registering as a nurse over 31 years ago Lynne has spent most of her career specialising in the care of older people. She has held a number of roles including ward sister, community matron, nurse specialist in acute and community settings and was the lead nurse in the Gateshead Care Home Initiative which received national recognition within the New Care Models 'Vanguard' team. Passionate about care improvement and integrated care delivery, Lynne's current substantive role is varied working across acute, intermediate, and community care settings as a nurse consultant. Regional secondment to this strategic team, further developing and delivering the EnCop Competency Framework provides an opportunity to continue to play a key proactive role in promoting system-wide improvements in the care of older people
