

Community Health Services Digital Group

(1) May-June 2023

Representation

At the first group we were delighted to welcome colleagues from:

- Various acute trusts
- Local Authority – ASC & Tech group links
- VCSE sector
- Commissioning
- AHSN – Tech/innovation
- NHS England
- Ageing Well

What Next?

What future topics do you want to discuss or showcase?

- e-Rostering / scheduling?
- Community Services Data Set (CSDS) / Urgent Community Response data?
- Shared Care Records for community providers?
- e-Referrals in community services?
- SystemOne Communications Annex and Visualisations?
- OPTICA Community?
- Something else?

Let us know in the poll

We're Up And Running!

The first group was held on 12th May 2023 with the aim of defining Community Health Services Digital (CHSD) in North East & North Cumbria ICS, networking, knowledge sharing and working out opportunities and gaps.

For a starting point definition, see the first slide in the appendix below. Here is the group's first Word Cloud:

What does 'Community Digital' mean to you?

26 responses

Current CHS digital focus

See the second and third slides in the appendix below for information on current CHSD draft strategy and the most relevant elements of the Ageing Well action plan for this year

Your feedback – take a quick poll

We received positive comments after the first group. What feedback do you have on our first session? Please complete [this brief poll](#)

"I think this group is going to be invaluable"

What next?

What would you like to focus on in the next group? Some possible examples are shown left. Please make your suggestions in the poll linked above.

Can you fill in the gaps? Let us know if you have information on the open queries

Open queries

Can we map what related activity is already happening across NENC?

We're collating information on various groups in Ageing Well and Local Authority, ready to share by the next meeting

Will there be a Teams channel or similar set up to support ongoing comms within the group?

Due to many organisations not being federated, approximately half of our attendees (non NHS accounts) can't access the Teams chat or files when they're not in the meeting. Will post attachments to frailtyicare website, explore collaborative options and share email updates for now.

Are there examples of systems connecting to VCS systems (Charity Log/ Dynamix etc)

We've reached out to digital colleagues...

Will EmisX have improved interoperability?

We've reached out to Emis for further information...

Networking opportunities

Contact us if you'd like to know more or to link in with any of these opportunities that were highlighted during the working group:
